Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1, 13, and 25 are rejected under 35 U.S.C. 102(e) as being anticipated by Iriki U.S. Patent 6,716,648. Iriki discloses a system of coinsurance wafer management for use in MPW (multi-project wafer) shuttle service, comprising at least: a production line to process at least a MPW shuttle including a plurality of original wafers and a quantity of coinsurance wafers with a common fabrication process before metal layering (col. 10 and 11, lines 56-67 and 1-12), process the original wafers with different metal layering fabrication processes according to a metal layering technology of each device design of the MPW shuttle (col. 11, lines 13-24), and withhold the coinsurance wafers without further fabrication (col. 18, lines 25-41). The Office interprets the waiting wafers as “coinsurance wafers” since, while they are waiting, they are being withheld from fabrication.

Allowable Subject Matter

3. Claims 2-12, 14-24, 26-36 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion
